

Certificate of Approval

This is to certify that the Management System of:

Adrem Invest S.A.

B-dul Iancu de Hunedoara nr.48, Cladirea Crystal Tower, et. 6&8, sector 1, Bucuresti Romania,
011745 Bucuresti, Romania

has been approved by LRQA to the following standards:

ISO 14001:2015

Approval number(s): ISO 14001 – 0027367

This certificate is valid only in association with the certificate schedule bearing the same number on which the locations applicable to this approval are listed.

The scope of this approval is applicable to:

Reading of electrical meters for home and industrial clients. Design of transformer points / substations, electric stations and electric installations of the power plants with any standardized nominal voltages. Execution of transformer points, of electric stations and works at the electrical parts of the power plants with any standardized nominal voltages. Execution of overhead and underground power lines with any standardized nominal voltages. Testing of electrical equipment and installations in order to certify the technical compliance of power plants in relation to the applicable technical norms. Services for electricity measuring groups administration, services for maintenance of electric power supply networks. Services related to activities in the metrological verification laboratory. Design, execution, technical consultancy and engineering for photovoltaic solutions, including storage capacities, and energy efficiency solutions such as heat pumps, charging stations. Verification and monitoring of reading and administration of electrical meters and of maintenance activities for electrical installations in operation, in the areas covered by customers. Data processing for the readings of electrical and natural gas meters.
